

# Lanopro Thread Paste 51-70 G

Grease/Paste

Product Data Sheet - 2010.12.06

## DESCRIPTION

**Lanopro Thread Paste 51-70 G** is a light brown, thread paste for rust protection and lubrication on threads and bolts, which is completely non-toxic and does not create an environmental footprint. It is a premium grade coating designed for maximum protection against degradation and corrosion of the steel. The product forms a protective shield which protects against harsh conditions and corrosion. The paste will not crack or peel, and will prevent mildew while offering unbeatable protection.

## Physical and Chemical Data

Analysis	Method	Unit	Results
Form			Solid, dough-like
Viscosity at 40°C	ASTM-D445		76.18 cSt
Density at 20°C	ASTM-D1298	kg/m <sup>3</sup>	927.8
Flash Point		°C	262
Colour			Light Brown
Copper Strip Corrosion	ASTM-D4048		1a
Odour			Without abnormal odour

The product is non-toxic and has no negative environmental impact. It is approved for use in marine environments by Harmonized Offshore Chemical Notification Format (HOCNF). Use normal protective goggles to protect eyes. It is not necessary to take any special precautions for workers that use this product. See Material Safety Data Sheets (MSDS) for more information.

## Handling:

- **Storage** Storage temperatures (0°C to +40°C)
- **Packaging** 5kg - 18kg - 180kg drums.
