

Lanopro Bio Spray 81-10 G

Cleaning

Specification Sheet - 2010.12.06

DESCRIPTION

Lanopro Bio Spray 81-10 G is a blank, rinse and protection aerosol with excellent penetration and cleaning properties. It is an all-round spray formulated for frequent use in harsh and heavy-duty conditions. The product will dissolve oil and grease on a lot of different areas, and forms a thin protective shield after. Suitable for all industrial work, such as workshops, cranes, truck and automobile industry, cleaning of wires and chains on ie. tower cranes, mobile cranes & dockside cranes. It will also clean and protect aluminium. The product is not dissolving. Also suitable for other open applications where there is necessary to get a clean and protected surface. A test before application is recommended.

APPLICATION

Under cold (<5°C) conditions it is beneficial to store the product in warm climate before use (room temperature) for better flow and spray ability. Coverage rates and amount will vary depending on how contaminated the surface is. Avoid apply unless temperature is 0°C or higher.

CLEAN UP

Clean brushes, tools and other equipment with soapy and/or hot water after use.

PHYSICAL PROPERTIES

The product is non-toxic and has no negative environmental impact. It is approved for use in marine environments by Harmonized Offshore Chemical Notification Format (HOCNF). Use normal protective goggles to protect eyes. It is not necessary to take any special precautions for workers that use this product. See Material Safety Data Sheets (MSDS) for more information.
