

Lanopro Metal Polish 80-05 G

Cleaning

Specification Sheet - 2010.12.06

DESCRIPTION

Lanopro Metal Polish 80-05 G is a polish and protection product with excellent penetration and cleaning properties. It is an all-around products formulated for frequent use in harsh and heavy-duty conditions. Specifically made for protection and cleaning of stainless steel. The product will dissolve stains of dirt or other impurities and leave a thin protective shield. Suitable for cleaning, maintenance, and industrial work (workshops, cranes, truck and automobile industry). It will also clean and protect aluminium. Also suitable for other open applications where it is necessary to get a clean and protected surface. It is recommended to do a test when using the product on surfaces not mentioned here.

APPLICATON

Under cold (<5°C) conditions it is beneficial to store the product at room temperature before use for better flow and spray ability. Coverage rates and amount will vary depending on how contaminated the surface is. Avoid applying unless temperature is 0°C or higher. Spray the product on the surface, dry off with paper or a dry cloth.

CLEAN UP

Clean brushes, tools and other equipment with soapy and/or hot water after use.

PHYSICAL PROPERTIES

The product is non-toxic and has no negative environmental impact. It is approved for use in marine environments by Harmonized Offshore Chemical Notification Format (HOCNF). Use normal protective goggles to protect eyes. It is not necessary to take any special precautions for workers that use this product. See Material Safety Data Sheets (MSDS) for more information.
