

# SAFETY DATA SHEET

## LanoPro Lubesnake

### SECTION 1: Identification of the substance/mixture and of the company/undertaking

#### 1.1. Product identifier

Trade name: LanoPro Lubesnake

#### 1.2. Relevant identified uses of the substance or mixture and uses advised against

Relevant identified uses of the substance or mixture: Lubricant  
Restricted to professional and industrial use.

Uses advised against : None known.

#### 1.3. Details of the supplier of the safety data sheet

Company and address: **LanoPro Production AS**

Smedveien 7  
1344 Haslum  
Norway  
+47 40 00 15 14  
www.lanopro.com

E-mail: mail@lanopro.com

Revision: 09/02/2026

SDS Version: 1.0

#### 1.4. Emergency telephone number

Healthcare professionals: Dial 0344 892 0111 to reach The National Poisons Information Service (NPIS) (24 hour service)

General public:

England - Dial 111 to reach NHS 111 (24 hour service)

Scotland - Dial 111 to reach NHS 24 (24 hour service)

Wales - Dial 111 or 0845 4647 to reach NHS Direct (24 hour service)

See section 4 "First aid measures".

### SECTION 2: Hazards identification

#### 2.1. Classification of the substance or mixture

Not classified according to Regulation (EC) No. 1272/2008 (CLP) as retained and amended in UK law.

#### 2.2. Label elements

Hazard pictogram(s): Not applicable.

Signal word: Not applicable.

Hazard statement(s): Not applicable.

Precautionary statement(s):

*General:* Not applicable.

*Prevention:* Not applicable.

*Response:* Not applicable.

*Storage:* Not applicable.

*Disposal:* Not applicable.

Hazardous substances: Does not contain any substances required to report

Additional labelling: EUH210, Safety data sheet available on request.

#### 2.3. Other hazards

According to REACH Regulation (EC) No 1907/2006, as retained and amended by SI 2019/758 and SI 2020/1577

Additional warnings: This mixture/product does not contain any substances known to fulfil the criteria for PBT and vPvB classification.  
This product does not contain any substances considered to be endocrine disruptors in accordance with the criteria set out in Commission Delegated Regulation (EU) 2017/2100 or Commission Regulation (EU) 2023/707.

### SECTION 3: Composition/information on ingredients

#### 3.1. Substances

Not applicable. This product is a mixture.

#### 3.2. Mixtures

| Product/substance               | Identifiers   | % w/w | Classification                           | Note |
|---------------------------------|---|-------|--|------|
| naphthenic acids, bismuth salts | CAS No.: 85736-59-0<br>EC No.: 288-470-5<br>UK-REACH:<br>Index No.: | 1-3%  | Skin Sens. 1, H317<br>Eye Irrit. 2, H319 | [19] |

See full text of H-phrases in section 16. Occupational exposure limits are listed in section 8, if these are available.

#### Other information

[19] UVCB = Unknown or variable composition, complex reaction products or of biological materials  
This product is a lithium-calcium complex grease based on mineral oil with additives.  
The mineral oils in the product contain < 3% DMSO-extract (IP346).

### SECTION 4: First aid measures

#### 4.1. Description of first aid measures

General information: In the case of accident: Contact a doctor or casualty department – take the label or this safety data sheet.  
Contact a doctor if in doubt about the injured person's condition or if the symptoms persist.  
Never give an unconscious person water or other drink.

Inhalation: Upon breathing difficulties or irritation of the respiratory tract: bring the person into fresh air.

Skin contact: Upon irritation: rinse with water. In the event of continued irritation, seek medical assistance.

Eye contact: Rinse gently with lukewarm water. Remove any contact lenses if this is easy to do. Continue rinsing. In case of persistent eye irritation or discomfort: Seek medical help.

Ingestion: Rinse mouth thoroughly. In case of continued discomfort or if large amounts have been swallowed: seek medical assistance and bring this safety data sheet.

Burns: Not applicable.

#### 4.2. Most important symptoms and effects, both acute and delayed

Repeated exposure may cause skin dryness or cracking.  
Ingestion may cause nausea, vomiting and diarré.

#### 4.3. Indication of any immediate medical attention and special treatment needed

Treat symptomatically.

#### Information to medics

Bring this safety data sheet or the label from this product.

### SECTION 5: Firefighting measures

#### 5.1. Extinguishing media

Suitable extinguishing media: Alcohol-resistant foam, carbon dioxide, powder, water mist.  
Unsuitable extinguishing media: Waterjets should not be used, since they can spread the fire.

## 5.2. Special hazards arising from the substance or mixture

Non-flammable

Fire will result in dense smoke. Exposure to combustion products may harm your health. Closed containers, which are exposed to fire, should be cooled with water. Do not allow fire-extinguishing water to enter the sewage system and nearby surface waters.

Hazardous decomposition products in case of fire: Carbon oxides (CO, CO<sub>2</sub>).

## 5.3. Advice for firefighters

Do not enter fire area without proper personal protective equipment, including respiratory protection.

## SECTION 6: Accidental release measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Ventilate area. Evacuate unnecessary personnel. Equip cleanup and emergency crew with proper protection. Contaminated areas may be slippery.

### 6.2. Environmental precautions

Avoid discharge to lakes, streams, sewers, etc.

Keep unauthorized persons away from the spill

### 6.3. Methods and material for containment and cleaning up

Limit spillage and collect using granular absorbent or similar materials, and dispose of it in accordance with the regulations on dangerous waste.

Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations.

Wherever possible cleaning should be performed with normal cleaning agents. Avoid use of solvents.

### 6.4. Reference to other sections

See section 13 "Disposal considerations" on handling of waste.

See section 8 "Exposure controls/personal protection" for protective measures.

## SECTION 7: Handling and storage

### 7.1. Precautions for safe handling

Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. Provide good ventilation in process area to prevent formation of vapour. Spillage causes slippery floors and tools. Keep away from sources of ignition.

Smoking, drinking and consumption of food are not allowed in the work area. Keep away from animal food stuff.

See section 8 "Exposure controls/personal protection" for information on personal protection (extremely slippery when spilled).

Keep away from animal food stuff.

### 7.2. Conditions for safe storage, including any incompatibilities

Recommended storage material: Keep only in original packaging.

Storage conditions: Must be kept undented, undamaged, and tightly sealed.  
Storage temperature: Dry, cool and well-ventilated < 45 °C (0-30 degrees)  
Protect from sunlight.  
Keep away from heat, sparks and open flame.  
Shelf life:  
5 years

Incompatible materials: Strong oxidizing agents

### 7.3. Specific end use(s)

This product should only be used for industrial use and according to the applications quoted in section 1.2.

! The warranty is valid only if guidelines and recommendations set forth by LanoPro Production AS have been carried out!

## SECTION 8: Exposure controls/personal protection

### 8.1. Control parameters

According to REACH Regulation (EC) No 1907/2006, as retained and amended by SI 2019/758 and SI 2020/1577

No substances are listed in the national list of substances with an occupational exposure limit.

**DNEL**

No data available.

**PNEC**

No data available.

**8.2. Exposure controls**

Apply general control to prevent unnecessary exposure

General recommendations: Smoking, drinking and consumption of food is not allowed in the work area.

Exposure scenarios: There are no exposure scenarios implemented for this product.

Exposure limits: Occupational exposure limits have not been defined for the substances in this product.

Appropriate technical measures: Apply standard precautions during use of the product. Avoid inhalation of vapours.

Hygiene measures: Wash hands after use.

Measures to avoid environmental exposure: No specific requirements.

**Individual protection measures, such as personal protective equipment**

Generally: Use only UKCA marked protective equipment.

Respiratory Equipment:

| Work situation                    | Type                              | Class   | Colour      | Standards |
|-----------------------------------|-----------------------------------|---------|-------------|-----------|
|                                   | No special when used as intended. |         |             |           |
| In case of inadequate ventilation | Combination filter A2P2           | Class 2 | Brown/White | EN14387   |

Skin protection:

| Recommended                               | Type/Category | Standards |
|---|---------------|-----------|
| Dedicated work clothing - should be worn. | -             | -         |

Hand protection:

| Material | Glove thickness (mm) | Breakthrough time (min.) | Standards                 |
|----------|----------------------|--------------------------|---------------------------|
| Nitrile  | 0,38                 | > 480                    | EN374-2, EN16523-1, EN388 |

Eye protection:

| Type                                | Standards |
|-------------------------------------|-----------|
| No special when used as - intended. |           |

**SECTION 9: Physical and chemical properties**

**9.1. Information on basic physical and chemical properties**

Physical state: Paste

Colour: Black

Odour / Odour threshold: No data available.

pH: No data available.

According to REACH Regulation (EC) No 1907/2006, as retained and amended by SI 2019/758 and SI 2020/1577

|                               |                                   |
|-------------------------------|-----------------------------------|
| Density (g/cm <sup>3</sup> ): | < 1000 kg/m <sup>3</sup> (25 °C)  |
| Kinematic viscosity:          | > 20.5 mm <sup>2</sup> /s (40 °C) |
| Particle characteristics:     | No data available.                |

#### Phase changes

|                                    |                    |
|------------------------------------|--------------------|
| Melting point/Freezing point (°C): | No data available. |
| Softening point/range (°C):        | No data available. |
| Boiling point (°C):                | No data available. |
| Vapour pressure:                   | No data available. |
| Relative vapour density:           | No data available. |
| Decomposition temperature (°C):    | No data available. |

#### Data on fire and explosion hazards

|  |                    |
|--|--------------------|
| Flash point (°C):                        | > 150 °C           |
| Flammability (°C):                       | No data available. |
| Auto-ignition temperature (°C):          | No data available. |
| Lower and upper explosion limit (% v/v): | No data available. |

#### Solubility

|                                       |                    |
|---------------------------------------|--------------------|
| Solubility in water:                  | Insoluble          |
| n-octanol/water coefficient (LogKow): | No data available. |
| Solubility in fat (g/L):              | No data available. |

#### 9.2. Other information

|   |                    |
|---|--------------------|
| Oxidizing properties:                   | No data available. |
| Other physical and chemical parameters: | No data available. |

## SECTION 10: Stability and reactivity

### 10.1. Reactivity

Stable under normal conditions of use.

### 10.2. Chemical stability

The product is stable under the conditions, noted in section 7 "Handling and storage".

### 10.3. Possibility of hazardous reactions

None known.

### 10.4. Conditions to avoid

Heat  
Sources of ignition. Direct sunlight.

### 10.5. Incompatible materials

Strong oxidizing agents

### 10.6. Hazardous decomposition products

Under normal conditions of storage and use, hazardous decomposition products should not be produced.

## SECTION 11: Toxicological information

### 11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008 as retained and amended in UK law

#### Acute toxicity

According to REACH Regulation (EC) No 1907/2006, as retained and amended by SI 2019/758 and SI 2020/1577

|                    |                   |
|--------------------|-------------------|
| Product/substance  | LanoPro Lubesnake |
| Route of exposure: | Oral              |
| Test:              | ATE               |
| Result:            | 4.259,40 mg/kg    |

|                    |                   |
|--------------------|-------------------|
| Product/substance  | LanoPro Lubesnake |
| Route of exposure: | Dermal            |
| Test:              | ATE               |
| Result:            | 2.019,30 mg/kg    |

Based on available data, the classification criteria are not met.

#### **Skin corrosion/irritation**

Based on available data, the classification criteria are not met.

#### **Serious eye damage/irritation**

Based on available data, the classification criteria are not met.

#### **Respiratory sensitisation**

Based on available data, the classification criteria are not met.

#### **Skin sensitisation**

|                    |   |
|--------------------|---|
| Product/substance  | LanoPro Lubesnake                                   |
| Test method:       | OECD 429  |
| Species:           | Mouse   |
| Result:            | No adverse effect observed (not sensitising)        |
| Other information: | Data obtained on this product or a similar product. |

Based on available data, the classification criteria are not met.

#### **Germ cell mutagenicity**

Based on available data, the classification criteria are not met.

#### **Carcinogenicity**

Based on available data, the classification criteria are not met.

#### **Reproductive toxicity**

Based on available data, the classification criteria are not met.

#### **STOT-single exposure**

Based on available data, the classification criteria are not met.

#### **STOT-repeated exposure**

Based on available data, the classification criteria are not met.

#### **Aspiration hazard**

Based on available data, the classification criteria are not met.

#### **Symptoms related to the physical, chemical and toxicological characteristics**

None known.

#### **11.2. Information on other hazards**

#### **Endocrine disrupting properties**

This mixture/product does not contain any substances known to have hormone-disrupting properties in relation to health.

#### **Other information**

None known.

## **SECTION 12: Ecological information**

#### **12.1. Toxicity**

Based on available data, the classification criteria are not met.  
Not considered to be harmful to aquatic life.

#### **12.2. Persistence and degradability**

|                   |                            |
|-------------------|----------------------------|
| Product/substance | LanoPro Lubesnake          |
| Conclusion:       | Not readily biodegradable. |

According to REACH Regulation (EC) No 1907/2006, as retained and amended by SI 2019/758 and SI 2020/1577

### 12.3. Bioaccumulative potential

Product/substance LanoPro Lubesnake  
Conclusion: No potential for bioaccumulation

### 12.4. Mobility in soil

The product is insoluble in water.

### 12.5. Results of PBT and vPvB assessment

This mixture/product does not contain any substances known to fulfil the criteria for PBT and vPvB classification.

### 12.6. Endocrine disrupting properties

This mixture/product does not contain any substances considered to have endocrine-disrupting properties in relation to the environment.

### 12.7. Other adverse effects

None known.

## SECTION 13: Disposal considerations

### Waste treatment methods

Product is covered by the regulations on hazardous waste. (\*)  
Regulation (EU) No 1357/2014 of 18 December 2014 on waste as retained and amended in UK law.  
The given LoW-code is a guiding, and the code depends on how the waste is formed. User must evaluate the choice of correct code.

### EWC code

13 08 99\* Wastes not otherwise specified

### Specific labelling

### Contaminated packing

Packaging containing residues of the product must be disposed of similarly to the product.

## SECTION 14: Transport information

|             | 14.1<br>UN / ID | 14.2<br>UN proper shipping name | 14.3<br>Hazard class(es) | 14.4<br>PG* | 14.5<br>Env** | Other<br>information: |

\* Packing group

\*\* Environmental hazards

### Additional information

Not dangerous goods according to ADR/ADN/RID, IATA and IMDG.

### 14.6. Special precautions for user

Not applicable.

### 14.7. Maritime transport in bulk according to IMO instruments

No data available.

## SECTION 15: Regulatory information

### 15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

Restrictions for application: Industrial use only.

Demands for specific education: No specific requirements.

Control of Major Accident Hazards (COMAH) - Not applicable.

Hazards (COMAH) -

According to REACH Regulation (EC) No 1907/2006, as retained and amended by SI 2019/758 and SI 2020/1577

Categories / dangerous substances:

Additional information: Not applicable.

Sources: Regulation (EU) No 1357/2014 of 18 December 2014 on waste as retained and amended in UK law.  
Regulation (EC) No 1272/2008 on classification, labelling and packaging of substances and mixtures (CLP) as retained and amended in UK law.  
Regulation (EC) No 1907/2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH) as retained and amended in UK law.

## 15.2. Chemical safety assessment

No

## SECTION 16: Other information

### Full text of H-phrases as mentioned in section 3

H317, May cause an allergic skin reaction.

H319, Causes serious eye irritation.

### Abbreviations and acronyms

ADN = European Provisions concerning the International Carriage of Dangerous Goods by Inland Waterway

ADR = The European Agreement concerning the International Carriage of Dangerous Goods by Road

ATE = Acute Toxicity Estimate

BCF = Bioconcentration Factor

CAS = Chemical Abstracts Service

CE = Conformité Européenne (European conformity)

CLP = Classification, Labelling and Packaging Regulation [Regulation (EC) No. 1272/2008]

CSA = Chemical Safety Assessment

CSR = Chemical Safety Report

DMEL = Derived Minimal Effect Level

DNEL = Derived No Effect Level

EINECS = European Inventory of Existing Commercial chemical Substances

ES = Exposure Scenario

EUH statement = CLP-specific Hazard statement

EuPCS = European Product Categorisation System

EWC = European Waste Catalogue

GHS = Globally Harmonized System of Classification and Labelling of Chemicals

GWP = Global warming potential

IARC = International Agency for Research on Cancer (IARC)

IATA = International Air Transport Association

IBC = Intermediate Bulk Container

IMDG = International Maritime Dangerous Goods

LogPow = logarithm of the octanol/water partition coefficient

MARPOL = International Convention for the Prevention of Pollution From Ships, 1973 as modified by the Protocol of 1978. ("Marpol" = marine pollution)

OECD = Organisation for Economic Co-operation and Development

PBT = Persistent, Bioaccumulative and Toxic

PNEC = Predicted No Effect Concentration

RID = The Regulations concerning the International Carriage of Dangerous Goods by Rail

RRN = REACH Registration Number

SCL = A specific concentration limit

SVHC = Substances of Very High Concern

STOT-RE = Specific Target Organ Toxicity - Repeated Exposure

STOT-SE = Specific Target Organ Toxicity - Single Exposure

TWA = Time weighted average

UN = United Nations

UVBC = Unknown or variable composition, complex reaction products or of biological materials

According to REACH Regulation (EC) No 1907/2006, as retained and amended by SI 2019/758 and SI 2020/1577

---

VOC = Volatile Organic Compound

vPvB = Very Persistent and Very Bioaccumulative

**Additional information**

In accordance with UK-REACH, a safety data sheet is not required for this product. This safety data sheet has been created on a voluntary basis to distribute relevant information as required by UK-REACH.

**The safety data sheet is validated by**

Safety Data Sheet Consulting AS

**Other**

A change (in proportion to the last essential change (first cipher in SDS version, see section 1)) is marked with a triangle. The information in this safety data sheet applies only to this specific product (mentioned in section 1) and is not necessarily correct for use with other chemicals/products.

It is recommended to hand over this safety data sheet to the actual user of the product. Information in this safety data sheet cannot be used as a product specification.

Country-language: GB-en
